OUR KEY SERVICES FOR HUNTING AND SAFARI

- Full customs assistance for importing into Canada: we can help you smoothly navigate the maze of international regulations. We make sure your weapons, ammunition and trophies are in complete compliance with Canadian customs requirements.
- Regulatory documentation management: we can assist your taxidermist in preparing the required documentation, including CITES permits, and take care of the paperwork so that everything goes without a hitch.
- Efficient transport logistics in partnership with international freight forwarders: we can transport your hunting equipment and trophies safely and on time. As soon as your items are packed and ready for shipment, we coordinate every step to ensure impeccable delivery.
- Personalized advice for every destination: no matter if you're planning a safari to the Big Four in South Africa, a hunt on the plains of Europe or an expedition to the forests of America or the mountains of Central Asia, we offer expert guidance for importing from various continents, taking local conditions and best practices into account.
